UX Designer

Hello there...

I'M PRITI

UX Designer & Student

As a Bachelor of Computer Applications student, I don't just see code, I see the human side of technology. That's why I'm diving headfirst into the world of UX design, driven by a passion to create digital experiences that feel intuitive, engaging, and genuinely helpful.

really want, and staying curious in this awesome, ever-evolving field.

01

Currently Learning

Building UX skills through courses and personal projects

02

Tools & Skills

Figma, User Research, Wireframing, Prototyping

LET'S WORK TOGETHER

01

Active Listening

I have a natural ability to tune in completely, focusing on understanding the full message, both spoken and unspoken. Creating environments where open communication can flourish.

02

Storytelling

Crafting easy-to-understand narratives through animations and visuals, transforming complicated concepts into compelling stories.

exploring a larger volume of options, allowing thorough and deep solution exploration.

04 Bridging the Gap

As a BCA student, uniquely positioned to bridge design and development, creating technically feasible designs with effective developer communication.

"Design is not just what it looks like and feels like. Design is how it works."

— Steve Jobs

Through My Lens

A collection of moments I've captured

Still moments

A little bit about me

WHO AM I?

I'm a UX/UI designer and a Bachelor of Computer Applications student, blending creative design with a strong technical foundation. I'm passionate about building user-centered

প্রী

UX Designer

Currently, I'm applying these skills as a UI/UX Design Intern at Green Dukan, where I collaborate on user interface design, wireframing, and branding for a sustainable platform. This hands-on experience, combined with my Google UX Design certification, allows me to move from user research to high-fidelity prototypes.

My background in computer applications (including C++, SQL, and OOPS) gives me a unique perspective, allowing me to effectively bridge the gap between design and development.

Let's create something amazing

LET'S WORK TOGETHER

I'm actively looking for entry-level UX design opportunities, internships, or freelance projects to gain real-world experience. I'd love to chat about design, get feedback on my work, or just connect with other designers. Don't hesitate to reach out!
